# About Us

Shree Civicinfra Pvt. Ltd. is a professionally managed, multidisciplinary service company delivering integrated solutions across infrastructure development, facility management, and essential support services. With expertise spanning civil construction, security systems, IT services, logistics, manpower, solar solutions, and allied supplies, we serve government, commercial, and institutional clients with efficiency and reliability.

Driven by quality, compliance, and timely execution, Shree Civicinfra Pvt. Ltd. acts as a single-window solution provider, simplifying operations and ensuring seamless service delivery. Our experienced team, robust vendor network, and customer-centric approach enable us to consistently meet diverse project requirements while maintaining high standards of safety and performance.

## *Director's Message*

At Shree Civicinfra Pvt. Ltd., we are committed to delivering reliable, integrated solutions with a strong focus on quality, compliance, and timely execution. Our goal is to build lasting partnerships by simplifying operations and consistently meeting client expectations.

**Mr. Prafull Shelke**  
Founder & Director

### Our Vision

To be a trusted and leading integrated service provider, delivering sustainable, innovative, and reliable infrastructure and support solutions that contribute to long-term growth and community development.

### Our Mission

- To deliver high-quality services across infrastructure, facility management, and essential supplies
- To ensure timely execution, safety compliance, and operational excellence
- To build long-term partnerships through transparency and accountability
- To continuously improve through technology, skilled manpower, and best industry practices

# Advertising Media & Printing Services for Government & Public Sector Projects

We provide end-to-end Advertising Media and Printing Media services for government, semi-government and institutional requirements. Our services support public awareness campaigns, official communication, branding and information dissemination, executed strictly as per approved designs, specifications and government guidelines.

## I. Advertising Media Services:

We undertake planning, production and execution of various advertising media, including:

- Outdoor Advertising (Hoardings, Banners, Flex Boards)
- Public Awareness Displays & Campaign Materials
- Event Branding & Promotional Displays
- Signages & Direction Boards
- Government Scheme Promotion Materials

## II. Printing Media Services:

We provide high-quality printing solutions for:

- Posters, Pamphlets & Flyers
- Brochures, Booklets & Reports
- Forms, Registers & Office Stationery
- Certificates, ID Cards & Official Documents
- Customized Printing as per tender BOQ(Bill of Quantities)

## III. Quality & Compliance:

- Printing and advertising as per approved artwork and dimensions
- Use of quality materials, inks and finishes
- Timely execution and installation as per schedule
- Compliance with government advertising norms and tender conditions
- Proper documentation and approvals

Our Advertising & Printing Media solutions ensure clear communication, high visibility and professional presentation, making us a reliable partner for government publicity and communication projects.

# CCTV Surveillance System Supply, Installation & Maintenance

We provide comprehensive CCTV Surveillance System solutions for government, semi government and institutional projects to ensure enhanced security, monitoring and safety. Our services include supply, installation, testing, commissioning and maintenance of CCTV systems as per government-approved technical standards.

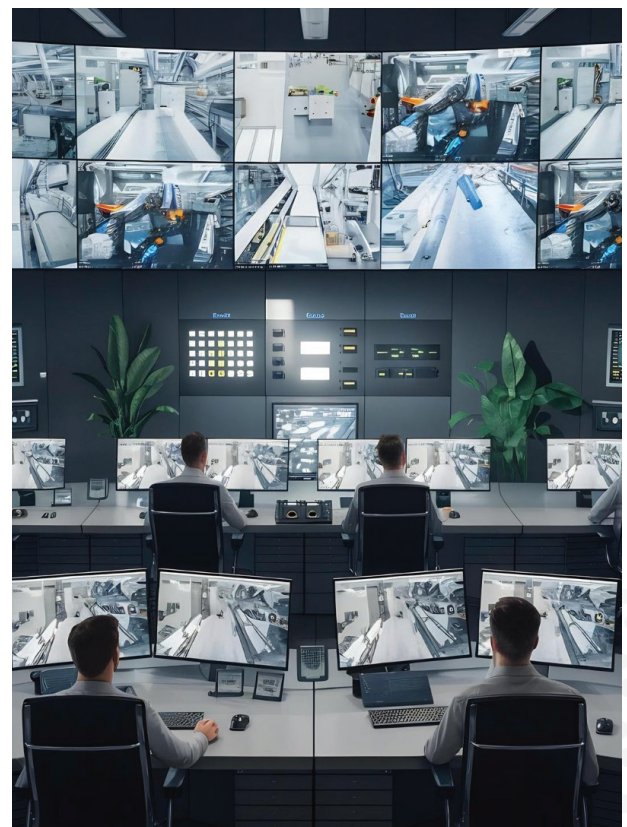

We deal in IP Cameras, Analog Cameras, Dome Cameras, Bullet Cameras, PTZ Cameras and NVR/DVR-based systems, suitable for offices, schools, hospitals, public places, industrial premises and infrastructure projects.

## **Our scope of work includes:**

- Site survey and security assessment
- Camera layout design and coverage planning
- Supply of approved CCTV equipment
- Installation, wiring and system integration
- Testing, commissioning and user training
- AMC and technical support services

All installations are executed in compliance with government tender specifications, cybersecurity norms and safety guidelines, ensuring reliable performance and long-term surveillance efficiency.

Our CCTV solutions help authorities prevent unauthorized activities, improve monitoring efficiency and enhance overall public safety.

# Civil Construction Services for Roads & Buildings

We provide comprehensive Civil Construction services for roads and buildings, catering to government, semi-government and institutional infrastructure projects. Our expertise covers planning, execution and completion of construction works in strict accordance with approved drawings, technical specifications and government standards.

## I. Road Construction Services:

We undertake construction and development of:

- Concrete and Asphalt Roads
- Internal Roads & Approach Roads
- Footpaths, Drains & Culverts
- Road Repair, Widening & Maintenance Works

All road works are executed using approved materials, modern machinery and quality control procedures to ensure durability, load-bearing capacity and long service life.

## II. Building Construction Services:

We execute civil works for:

- Government Offices & Administrative Buildings
- Schools, Colleges & Hospitals
- Residential & Institutional Buildings
- RCC Structures, Compound Walls & Allied Works

Our building construction services include foundation work, RCC structure, masonry, plastering, flooring and finishing works,

delivered with precision and adherence to safety norms.

## Our Scope & Standards:

- Site survey and project planning
- Execution as per PWD, CPWD & local authority norms
- Quality control and material testing
- Timely project completion as per tender timelines
- Safety compliance and proper documentation

Our civil construction solutions focus on structural strength, quality workmanship and timely delivery, making us a reliable partner for government infrastructure development projects.

# Fire Safety System Supply, Installation & Compliance Services

We provide complete Fire Safety solutions for government, semi-government and institutional projects to ensure protection of life and property. Our services include supply, installation, testing, commissioning and maintenance of fire safety systems in compliance with applicable Fire Department norms, NBC (National Building Code) and government regulations.

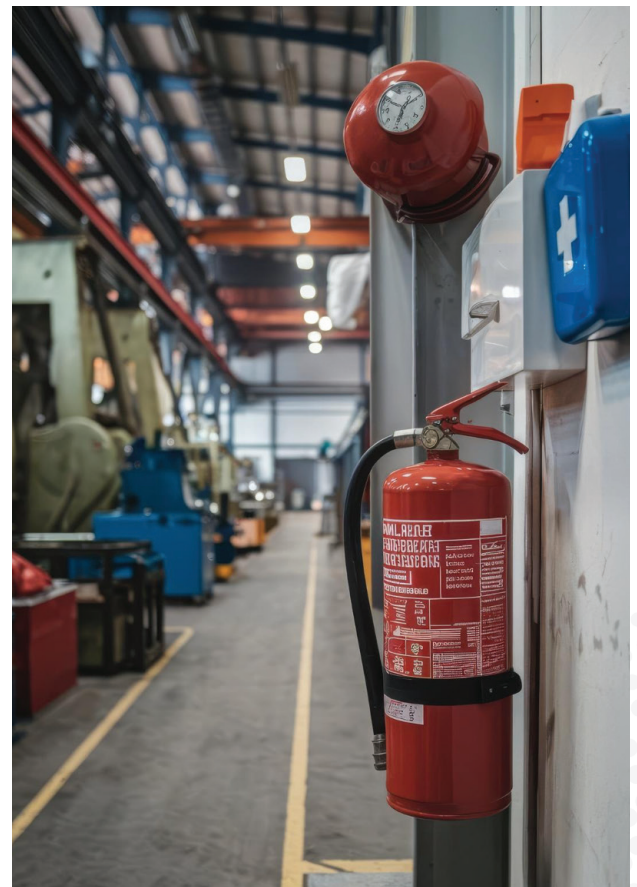

## We handle a wide range of fire safety systems, including:

- Fire Alarm & Detection Systems
- Smoke, Heat & Flame Detectors
- Fire Extinguishers (ABC, CO<sub>2</sub>, Water, Foam, Clean Agent)
- Fire Hydrant & Hose Reel Systems
- Sprinkler & Suppression Systems
- Fire Exit Signage & Emergency Lighting

## Our scope of work includes:

- Site survey and fire risk assessment
- System design as per approved drawings
- Supply of certified and approved equipment
- Professional installation and commissioning
- Testing, demonstrations and user training
- AMC, refilling and periodic inspections

All fire safety installations are executed strictly as per government tender specifications and fire authority guidelines, ensuring statutory compliance and long-term reliability. Our fire safety solutions help organizations meet legal compliance, enhance emergency preparedness and ensure a safe working environment.

# Food Supply & Meal Services for Government & Public Sector Projects

We provide reliable Food Supply Services for government, semi-government, and institutional requirements, ensuring quality, hygiene, and timely delivery. Our services are executed in strict compliance with FSSAI guidelines, government norms, and tender specifications.

Our food services focus on nutritional value, consistent quality, and safety, ensuring satisfaction and trust for long-term government food supply contracts.

## **We undertake food services for:**

- Government Offices & Departments
- Schools, Colleges & Hostels
- Hospitals & Healthcare Facilities
- Training Centers, Camps & Public Programs
- Government Events & Official Functions

## **Our scope of work includes:**

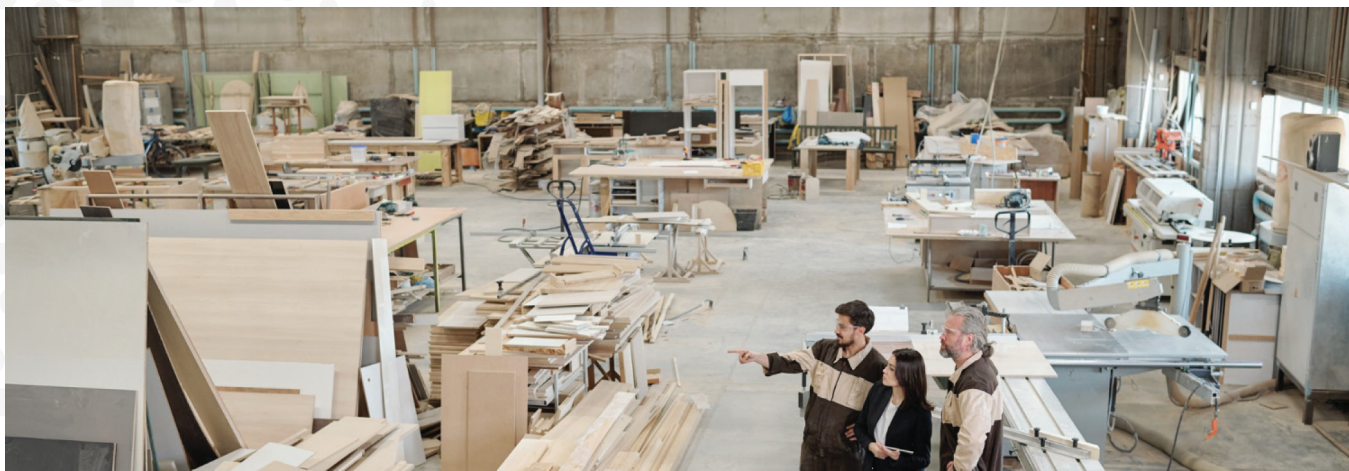

- Cooked Meal Supply (Breakfast, Lunch, Dinner)
- Mid-Day Meal & Institutional Food Services
- Packed Food & Refreshment Supply
- Event & Conference Food Services
- Bulk Food Preparation & Distribution

## **Quality, Hygiene & Compliance:**

- FSSAI-registered food preparation and supply
- Hygienic kitchen practices and trained staff
- Quality raw materials and controlled cooking processes
- Timely supply as per schedule and quantity

# Furniture Supply, Fabrication & Installation Services

We provide complete Furniture Work solutions for government, semi-government and institutional projects. Our services include supply, custom fabrication, installation and maintenance of furniture as per approved drawings, specifications and government standards.

## **We undertake furniture works for:**

- Government Offices & Administrative Buildings
- Schools, Colleges & Educational Institutions
- Hospitals, Hostels & Public Buildings
- Staff Quarters & Institutional Facilities

## **Our scope of furniture services includes:**

- Office Furniture (Tables, Chairs, Workstations, Storage Units)
- Wooden & Modular Furniture
- Classroom & Laboratory Furniture
- Hospital & Institutional Furniture
- Customized Furniture as per tender BOQ

All furniture is manufactured using quality-approved materials, durable finishes and ergonomic designs to ensure long life and user comfort.

## **Quality & Compliance:**

- Work executed as per tender specifications and BOQ (Bill of Quantities)
- Use of approved wood, plywood, laminates and hardware
- Proper finishing, fitting and installation
- Timely delivery and handover
- Maintenance and replacement support if required

Our furniture solutions combine functionality, durability and professional aesthetics, making them suitable for long-term use in government facilities.

# IT Services & Digital Solutions for Government & Public Sector Projects

We provide comprehensive IT Services and Digital Solutions for government, semigovernment and institutional clients, supporting digital transformation, operational efficiency and secure data management. Our services are delivered as per approved specifications, cybersecurity guidelines and government tender requirements.

## **Website Creation & Development:**

- Government and institutional websites
- Informative, service-based and portal websites
- Secure, responsive and user-friendly design
- Hosting, maintenance and content support

## **Software Development & Data Storage Solutions:**

- Customized software as per departmental needs
- Application development and system integration
- Secure data storage and backup solutions
- Access control and data management support

## **e-Office & Digital Workflow Services:**

- e-Office implementation and configuration
- File movement, digital documentation and approvals
- User training and operational support
- Integration with existing IT systems

## **IT Support, Software & Hardware Supply:**

- Supply of approved IT hardware (computers, servers, networking equipment)
- Licensed software supply and installation
- IT infrastructure setup and maintenance
- Technical support, troubleshooting and AMC services

## **Compliance & Quality Standards:**

- Adherence to government IT policies and security norms
- Use of genuine licensed software and approved hardware
- Proper documentation, training and handover
- Timely execution and post-implementation support

Our IT Services & Digital Solutions help government and institutional organizations achieve secure digital operations, improved efficiency and reliable IT infrastructure, making us a trusted technology partner for public sector projects.

# Logistics & Transport Services for Government & Public Sector Projects

We provide efficient and reliable Logistics & Transport Services for government, semigovernment and institutional requirements, ensuring safe handling, timely movement and systematic delivery of materials and goods. Our services are executed in strict compliance with government norms, safety regulations and tender conditions.

## **We support logistics and transport operations for:**

- Government Departments & Offices
- Infrastructure & Construction Projects
- Hospitals, Educational Institutions & Public Facilities
- Events, Camps & Official Programs

## **Scope of Logistics & Transport Services:**

- Transportation of materials, equipment and supplies
- Inward and outward logistics management
- Loading, unloading and safe handling of goods
- Short-term and long-term transport arrangements
- Route planning and schedule management

## **Fleet & Operations:**

- Light, medium and heavy commercial vehicles

- Trained drivers and support staff
- Proper documentation and vehicle compliance
- Real-time coordination and delivery tracking

## **Compliance & Safety Standards:**

- Vehicles operated as per RTO and government regulations
- Adherence to safety, insurance and permit requirements
- Timely execution as per tender schedules
- Proper record-keeping and reporting

Our Logistics & Transport Services ensure smooth supply chain operations, cost efficiency and dependable service, making us a trusted partner for government and institutional logistics contracts.

# Manpower Supply Services (Skilled & Unskilled Workforce)

We provide reliable Manpower Supply Services for government, semi- government and institutional projects, offering both skilled and unskilled workforce as per project requirements and tender specifications.

Our manpower solutions support various sectors including construction, electrical, plumbing, sanitation, security support, office assistance and technical operations.

## Types of Manpower Provided:

### • Skilled Manpower:

Technicians, Electricians, Plumbers, Fitters, Welders, Operators, Supervisors and Technical Staff

### • Unskilled Manpower:

Helpers, Labourers, Cleaners, Loaders, Support Staff and General Workers

## Compliance & Standards:

- Deployment as per government norms and contract terms
- Adherence to labour laws, PF, ESIC and statutory requirements
- Identity verification and attendance management
- Safety training and supervision
- Timely replacement and workforce continuity

Our manpower services ensure efficient workforce

management, cost-effectiveness and uninterrupted operations, making us a dependable partner for long-term government

# Security & Surveillance Services for Government & Public Sector Projects

We provide professional Security Services for government, semi-government and institutional establishments to ensure round-the-clock safety, discipline and asset protection. Our services focus on trained security manpower supported by integrated surveillance monitoring, as per government tender requirements and safety guidelines.

## I. Security Manpower Services:

**We deploy verified, trained and disciplined security personnel for:**

- Government Offices & Administrative Buildings
- Educational Institutions & Campuses
- Hospitals & Healthcare Facilities
- Industrial & Infrastructure Sites
- Residential & Public Premises

**Security manpower includes:**

- Security Guards (Day / Night Shifts)
- Security Supervisors & Site In-charge
- Entry Gate Management & Visitor Control
- Patrolling, Monitoring & Incident Reporting

## II. Integrated Surveillance Support:

**As part of our security operations, we provide surveillance monitoring support by integrating existing CCTV systems for:**

- Real-time monitoring and supervision
  - Incident detection and reporting
  - Coordination with authorities when required
- (Note: CCTV system supply and installation are offered under a separate dedicated service.)

## III. Compliance & Quality Standards:

- Police verification and ID-verified security staff
- Compliance with labour laws, PF & ESIC
- Training in safety procedures and emergency response
- Adherence to government tender terms
- Regular supervision and performance reporting

Our Security Services with Integrated Surveillance Support ensure enhanced safety, operational control and reliability, making us a trusted partner for long-term government security contracts.

# Solar Infrastructure & Renewable Energy Projects

## 1. Solar Himax System Installation & Government Projects

We provide end-to-end Solar Himax System solutions for government, semi-government and institutional projects. Our services include supply, installation, testing, commissioning and maintenance of Himax solar systems as per approved government specifications and standards.

Solar Himax systems are designed for high efficiency, long durability and consistent power output, making them ideal for government buildings, offices, schools, hospitals, water pumping stations and infrastructure projects.

### **Our team ensures:**

- Compliance with MNRE & government norms
- Use of approved quality materials
- Timely execution as per tender conditions
- Safety standards and proper documentation

We have expertise in handling large-scale solar projects, ensuring long-term performance, cost efficiency and sustainability for government assets.

## 2. Solar Panel Supply, Installation & Maintenance Services

We specialize in Solar Panel supply and installation services for government contracts, public utilities and infrastructure projects. Our solar panels are sourced from approved and reputed manufacturers, ensuring high energy generation and long service life.

### **Our scope of work includes:**

- Site survey and load assessment
- Design and layout planning
- Solar panel installation and grid connection
- Testing, commissioning and performance checks
- Annual maintenance and support services

Solar panels installed by us help government departments reduce electricity costs, promote renewable energy usage and support national sustainability goals.

We follow all technical guidelines, tender specifications and safety protocols to deliver reliable, efficient and scalable solar power solutions.

# Water Purifier Supply, Installation & Maintenance Services

We offer complete Water Purifier solutions for government, semi-government and institutional projects, ensuring access to safe, clean and potable drinking water. Our services include supply, installation, testing, commissioning and maintenance of water purification systems as per approved government norms and specifications.

We deal in RO, UV, UF and Industrial Water Purifier Systems, suitable for offices, schools, hospitals, hostels, public buildings, industrial units and community facilities.

## **Our services cover:**

- Site inspection and water quality analysis
- Selection of appropriate purification technology
- Supply of approved and certified water purifiers
- Professional installation and commissioning
- AMC and regular maintenance support

All systems are installed following government tender guidelines, safety standards and quality protocols, ensuring long-term performance and reliability.

Our water purification solutions help government departments maintain public health standards, reduce waterborne diseases and ensure continuous supply of purified drinking water.

# Linen Management Services for Government & Public Sector Projects

We provide professional Linen Management Services for government, semi-government and institutional facilities, ensuring high standards of hygiene, cleanliness and systematic handling. Our services are executed in strict compliance with government norms, health guidelines and tender specifications.

## **We manage end-to-end linen operations for:**

- Hospitals & Healthcare Facilities
- Hostels, Guest Houses & Residential Facilities
- Government Offices & Training Centers
- Institutional & Public Facilities

## **I. Scope of Linen Management Services:**

- Collection and segregation of used linen
- Scientific washing and disinfection processes
- Drying, ironing and proper folding
- Stain treatment and fabric care
- Timely supply and linen inventory management

## **II. Types of Linen Handled:**

- Bed Sheets, Pillow Covers & Blankets
- Towels, Curtains & Uniform Linen
- Hospital and Institutional Linen
- Customized linen items as per approved requirements

## **III. Quality, Hygiene & Compliance:**

- Use of approved disinfectants and processing methods
- Adherence to infection control and hygiene protocols
- Trained manpower with supervised operations
- Compliance with labour laws and safety norms
- Regular quality checks and performance reporting

Our Linen Management Services ensure clean, hygienic and well-maintained linen, supporting comfort, health and operational efficiency in government and institutional environments.

# Housekeeping Services for Government & Institutional Facilities

We provide professional Housekeeping Services for government, semi-government and institutional establishments, ensuring clean, hygienic and well-maintained premises. Our services are delivered in compliance with government norms, health guidelines and tender specifications.

## **We undertake housekeeping services for:**

- Government Offices & Administrative Buildings
- Hospitals & Healthcare Facilities
- Educational Institutions & Campuses
- Hostels, Guest Houses & Residential Facilities
- Public Buildings & Infrastructure Sites

## **I. Scope of Housekeeping Services:**

- Daily cleaning and maintenance of premises
- Floor, washroom and common area cleaning
- Dusting, mopping and sanitization
- Waste collection, segregation and disposal
- Deep cleaning and periodic maintenance

## **II. Manpower & Operations:**

- Trained and uniformed housekeeping staff
- Supervisors for quality control and monitoring
- Use of approved cleaning equipment and chemicals
- Shift-wise deployment as per site requirement

## **III. Quality, Hygiene & Compliance:**

- Adherence to hygiene and infection-control protocols
- Compliance with labour laws, PF & ESIC
- Safety training and use of protective equipment
- Regular inspections and performance reporting

Our Housekeeping Services ensure a clean, safe and healthy environment, supporting smooth operations and a positive image for government and institutional facilities.

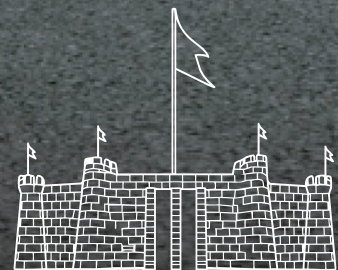

Your Trusted Partner for  
Integrated Infrastructure and Essential Services.
